

VACANCY ANNOUNCEMENT

Job Summary

Position: Technical Officer - Case Management & Malaria in Pregnancy [Clinician]
(2 posts) - TMSA
Reports To: Regional Project Manager
Work Station: Katavi
Apply By: October 11, 2022

Institute Overview

Ifakara Health Institute (IHI) is a leading research organization in Africa with a strong track record in developing, testing and validating innovations for health. Driven by a core strategic mandate for research, training and services, the Institute's work now spans a wide spectrum, covering biomedical and ecological sciences, intervention studies, health-systems research, service delivery and policy translation.

Position Summary

Ifakara Health Institute seeks **Technical Officers** to join the PMI | Tanzania Malaria Surveillance Activity (TMSA) team. The Officers will provide technical and programmatic support in malaria case management and malaria in pregnancy services. The Officers will ensure the technical and methodological soundness of activities at service delivery both in facility and community settings, based on sound and current scientific evidence. The Officers will work closely with the TMSA Regional Manager and the Technical Advisor, on malaria case management and malaria in pregnancy, to ensure TMSA activities are successfully implemented, monitored, and reported in all councils of Katavi. The Officers will also maintain working relationships and collaboration with project stakeholders including health care workers, R/CHMT members, and other partners.

The PMI | Tanzania Malaria Surveillance Activity is a five-year program (August 2022 – August 2027) implemented by Ifakara Health Institute, which supports the Government of Tanzania (GOT) in reducing malaria burden and in moving towards malaria elimination. The Activity is made possible by the support of the American people through the US President's Malaria Initiative (PMI) and the United States Agency for International Development (USAID).

The PMI | TMSA works with the GOT to reduce malaria burden and move towards the long-term goal of malaria elimination—while achieving USAID's strategy to support institutional growth and capacity development for local institutions. The PMI | TMSA will address the urgent healthcare needs of malaria at-risk populations, especially vulnerable pregnant women and children under five, and support Tanzania partners to grow and execute malaria programs sustainably and successfully.

The PMI | TMSA project will primarily work to support both facility- and community-based malaria activities in all districts of Katavi region, as well as making contribution to the national malaria priorities through the National Malaria Control Programme (NMCP).

VACANCY ANNOUNCEMENT

- Provide technical support in implementing malaria case management strategies and interventions.
- In collaboration with RHMT, CHMTs and other project staff, implement and evaluate strategies to improve the knowledge, skills and attitudes of health providers in malaria CM and MiP services.
- Build capacity of regional, district and facility-based supervisors and service providers in malaria CM and MiP, through mentorship and periodic assessments guided by national tools.
- Ensure timely planning, development and implementation of MCM and MiP activities in the region.
- Support dissemination of the latest national guidelines and protocols in malaria case management and malaria in pregnancy to the facility level.
- Support the R/CHMT in planning and conducting Malaria Service Data Quality Improvement (MSDQI) supportive supervision of all health facilities in Katavi.
- To ensure the MSDQI activities are conducted, monitored and reported as planned.
- Provide technical support to the R/CHMTs to interpret and use malaria CM and MiP programmatic data for decision making.
- Provide technical support towards strengthening facilities for providing comprehensive quality ANC services including MiP.
- Provide support to council teams to ensure quality malaria case management and MiP services at the community and facility level.
- Provide clinical mentorship in malaria case management and MiP services in accordance with national protocols.
- Identify evidence-based practices related to malaria programming and facilitate application.
- Ensure proper documentation of TMSA developments and generated information in an appropriate format including success stories and reports.
- Contribute to the preparation of the project's quarterly reports.
- Facilitate quarterly data review meetings for CHMTs and health care workers.
- Participate in CHMTs meetings to share project findings and challenges and provide technical support where necessary.
- Ensure availability of tools for data collection in all facilities within the council.
- Participate in malaria training, mentorship, meetings and workshops.
- Work closely with social behavior change (SBC) officers and community health care workers (HCWs) in community mobilization and advocacy regarding malaria services.
- Work closely with the data manager, and monitoring and evaluation officers to ensure data integrity in the database.
- Attend all duties as assigned by senior staff.
- Participate in project/staff meetings.

Qualification and Experience

- Degree in Clinical Medicine or its equivalent.
- A valid medical practitioner license.
- At least 5 years of work experience in a public, private sector or NGO, with at least 3 years of clinical work.
- Experience working with donor-funded projects is an added advantage.
